ELECTRICITY AND LIGHT IN EMERGENCY SITUATIONS: FOR FASTER AND SUSTAINABLE RELIEF

Who is Electriciens sans frontières?

Electriciens sans frontières (Electricians without borders) is a French NGO carrying out electricity and water access projects in developing countries.

Our driving force is built on 1000 volunteers who conduct projects in favor of populations isolated from electricity grids and who suffer from energy poverty.

But most of all, we act with them, taking their needs into careful consideration and working with them to find the most affordable, efficient and sustainable energy and water solution.

Kids and lamp post after typhoon Yolanda, 2013, Philippines

What do we do?

124 projects

35 countries

95% of our actions
totally or partly use
renewable energies

Why do we do that?

1.2 billion people
still have no electricity access¹

80% of them
live in Sub-Saharan Africa
and South Asia¹

1. International Energy Agency, World Energy Outlook, 2013

ELECTRICITY FOR IMPROVED EMERGENCY RESPONSE EFFICIENCY

> SUPPORT TO HUMANITARIAN ACTORS AND CIVIL SOCIETY

We take action in humanitarian crises to enable other international aid providers to intervene in the best possible conditions. We work alongside other NGOs and civil society actors to provide **electrical power for hospitals, lighting for survivor search areas** and for **refugee camps**. We also work to provide electrical power to **water pumping stations**. Over the years we have worked alongside international actors such as the Red Cross, The Red Crescent, Doctors without borders and the IOM as well as many local NGOs and governmental actors.

> DIRECT ACTION

We also provide direct help to disaster victims, contributing to their **safety** and enabling them to maintain **social contact** throughout the night, especially by providing lighting in **refugee camps**, public spaces, **collective buildings** (town halls, hospitals, schools, etc.).

ELECTRICITY FOR SAFER AND BETTER RECONSTRUCTION

> SUPPORT TO HUMANITARIAN ACTORS AND CIVIL SOCIETY

Our involvement continues during the reconstruction phase. We work **alongside other actors to help rebuild towns and villages**. In the Maldives, we have worked with the French Red Cross on a reconstruction project after the 2004 tsunami. We partnered up again with the Red Cross after typhoon Yolanda in the Philippines and are currently working on a common reconstruction project in the Cebu area.

> DIRECT ACTION

We also contribute directly to reconstruction. For example, in Haiti, following the earthquake in 2010, we set up **solar lamp posts** in the areas under reconstruction and today we have started a program of **solar electrification** for 1,000 schools.

TRAINING FOR AUTONOMY AND SUSTAINABILITY

All our projects include **training sessions for the beneficiaries** and are carried out in coordination with local authorities. This guarantees a **safe use of the equipment**, its **durability** and the **autonomy** of the populations we help. We raise their awareness of electrical hazards, energy savings, and provide training to maintain the installations. Involving the beneficiaries and local authorities in such a way and passing on those competences ensures the sustainability of our projects.

Searching for earthquake survivors, 2010, Haiti

EMERGENCY RESPONSE IN ALL TYPES OF CRISIS SITUATIONS

NATURAL DISASTERS

HAITI

After the 2010 earthquake we facilitated the search for survivors by lighting the search areas and we worked alongside the IOM in the Santos 17 refugee camp. We also electrified Doctors without borders' hospital in Leogane. We installed 800 solar lamp posts over the year and we are currently working with the Haiti Futur association on a solar electrification project for 1,000 schools, designed for the deployment of interactive whiteboards, a project supported by the French Embassy and the World Bank.

PHILIPPINES

In 2013 we put our experience and know-how at the service of the Philippines after typhoon Yolanda struck the archipelago. 21 volunteers responded to the electrical needs of various organizations such as the Mayor of Guiuan, MSF Belgium, the IOM and OCHA to provide electricity for hospitals, drinking water pumping stations, and tent camps (for displaced families) and isolated villages. To ensure safety and help life resume its normal course, 650 lighting points, 96 power generators and 28 km of cable were installed between November 2013 and February 2014.

Installation of solar lamp posts, 2010, Haiti

Electrification in IOM camp in Guiuan, 2013, Philippines

Installation of solar lamp posts in Al Za'atari refugee camp, 2012, Jordan

ARMED CONFLICTS

SYRIAN CRISIS AND IRAQ

In late 2012, the Crisis Centre of the French Ministry of Foreign Affairs requested that Electriciens sans frontières took action in the Za'atari refugee camp, in Northern Jordan. 100 solar lamp posts were installed and contributed to improving the safety conditions of 120,000 Syrian refugees. In August 2014, Electriciens sans frontières also sent out a ton of electrical equipment to Iraqi Kurdistan, aboard a plane chartered by the Crisis Centre of the French Ministry of Foreign Affairs, to contribute to the electrification of the refugee camps managed by the IOM.

FAMINE AND SANITARY CRISES

HORN OF AFRICA

In 2011, we helped humanitarian relief organizations WAHA (Women and Health Alliance International), Somali Red Crescent, MSF and Médecins du Monde in Dadaab (Kenya), Mogadiscio (Somalia) and Dolo Ado (Ethiopia). We set up the lighting and provided electrical material in camps and medical facilities to help the refugees and relief workers. We also provided training to Somali technicians.

EBOLA VIRUS IN EASTERN AFRICA

In October 2014, Electriciens sans frontières provided its expertise to the teams of the French Red Cross in the Macenta ebola treatment center (Guinea). The project consisted in setting up electrical installations for the medical facilities, the Institut Pasteur's laboratory and staff accommodation. In January 2015, another volunteer flew to Guinea to better the Conakry blood transfusion center's installations.

SECOURS ISLAMIQUE FRANCE

PRESENTATION GENERALE

GENERAL INTRODUCTION

تعريف عام

Fondé en 1991, le Secours Islamique France (SIF) est une Organisation Non Gouvernementale de solidarité internationale à vocation sociale et humanitaire agissant dans les domaines de l'assistance humanitaire et de l'aide au développement, en France et dans le monde.

Le SIF c'est 23 ans d'actions sur le terrain, guidées par les valeurs de l'islam, de solidarité et de respect de la dignité humaine, et par les principes humanitaires de neutralité, d'indépendance et d'impartialité. Chacun de ces principes garantit aux populations une aide, dans le respect de la diversité – culturelle, religieuse, sociale – et sans rien attendre en retour.

Le SIF c'est 16 missions opérationnelles en Asie du Sud Est, au Moyen Orient, en Afrique et en Haïti, plus de 350 salariés dans le monde, plus de 20 millions d'euros de budget annuel, des dizaines de partenariats institutionnels et opérationnels comme le Ministère des Affaires Etrangères ou encore Unicef.

Le Secours Islamique France mène des actions d'urgence, de développement et de plaidoyer dans quatre domaines principaux : l'eau et l'assainissement, la sécurité alimentaire, la protection de l'enfance, la lutte contre la précarité via des missions sociales envers les plus démunis en France.

Founded in 1991, Secours Islamique France (SIF) is a Non Governmental Organization devoted to social and humanitarian assistance and development aid in France and the world.

SIF is a 23 year-old NGO guided by the Islamic values of solidarity and respect for human dignity and by the humanitarian principles of neutrality, independence and impartiality. These principles ensure that relief reaches all people in need, whilst respecting their diversity – whether cultural, religious or social and without expecting anything in return.

SIF runs field missions in 16 countries throughout South-East Asia, the Middle East, Africa and Haiti employs more than 350 people worldwide, with a budget of 20 million Euros each year and dozens of institutional and operational partnerships such as the Ministry of Foreign Affairs or Unicef.

SIF runs emergency aid projects, development programmes and advocacy initiatives in four main fields: Water and Sanitation, Childhood Protection, Food Security and Social action to the most vulnerable in France (social patrols, housing insert, etc.).

©SIF / Vali Faucheux

تأسست الإغاثة الإسلامية فرنسا في عام 1991 و هي منظمة غير حكومية للتضامن الدولي في العمل الاجتماعي و الإنساني في مجالات المساعدات الإنسانية ومساعدات التنمية في فرنسا والعالم. الإغاثة الإسلامية فرنسا هي 23 سنة من العمل على الأرض مسترشدة في ذلك من قيم الإسلام، التضامن واحترام كرامة الإنسان، والمبادئ الإنسانية المتمثلة في الحياد، الاستقلالية و الإنصاف. كل هذه المبادئ تضمن مساعدة للشعوب مع احترام كل الاختلافات إن كانت ثقافية، دينية، أو اجتماعية، و دون أي مقابل.

الإغاثة الإسلامية فرنسا تقود إجراءات الطوارئ، التنمية و التوعية في 4 مجالات رئيسية: الماء و خدمات الصرف الصحي، الأمن الغذائي، حماية الأطفال، مكافحة الفقر و الإقصاء.

EAU ET ASSAINISSEMENT

Afin de favoriser l'accès de l'ensemble de la population - y compris des plus vulnérables - à l'eau, le Secours Islamique France se mobilise sur le terrain (approvisionnement, installations sanitaires, sensibilisation à une hygiène de base) et dans le domaine du plaidoyer pour la mise en œuvre effective du droit à l'eau et à l'assainissement.

WATER & SANITATION

In order to promote access to the entire population, including to the most vulnerable people, SIF is active in the field (water and sanitary facilities supply, basic hygiene awareness) and in the area of advocacy for an effective implementation of the right to safe water and sanitation.

الماء، خدمات الصرف الصحي و النظافة
يعتبر الحصول على الماء الصالح للشرب و خدمات الصرف
الصحي و النظافة حقا أساسيا لكل إنسان. تكافح الإغاثة الإسلامية
فرنسا في مجالات تموين الماء، خدمات الصرف، توعية النظافة
الأساسية و تأييد حق ولوج إلى الماء.

SÉCURITÉ ALIMENTAIRE

Programmes saisonniers et projets à long terme se complètent afin de lutter efficacement contre les facteurs et les conséquences de la faim : distributions de colis alimentaires et de colis de viande à l'occasion du Ramadan et de la fête de l'Aïd Al Adha, relance agricole, projet de lutte contre la malnutrition, distribution de cheptel, etc.

FOOD SECURITY

Seasonal programmes and long-term projects complement each other to counteract hunger, its factors and consequences: distribution of food packages

and meat during Ramadhan and Eid El-Adha, farming activities, fight against malnutrition, distribution of livestock, etc

الأمن الغذائي
برامجنا الموسمية و مشاريعنا الطويلة المدى لمكافحة الجوع: توزيع
طرود الغذاء و الأضحية خلال شهر رمضان و عيد الأضحى، الأعمال
الفلاحية، تنفيذ مشروع مكافحة سوء التغذية، توزيع الماشية الأغنام.

PROTECTION DE L'ENFANCE

Le SIF accorde aux enfants une attention particulière à travers des programmes de protection spécifiques : nutrition, accès aux soins, éducation et prise en charge psycho-sociale. Cette priorité s'accompagne d'une mise en œuvre du programme de parrainage : scolarisés et encadrés, les enfants sont à l'abri des nombreux risques d'exploitation.

CHILDHOOD

Children are granted special attention through specific protection programmes: nutrition, access to health care, education and psycho-social support. These programmes are combined, in some countries, with orphans' sponsorship programmes: thanks to education and counselling, children are protected from many risks of exploitation.

الطفولة
تشكل حماية الأطفال المتضررين محورا أساسيا في العديد من
برامجنا: التغذية، الوصول إلى العلاجات الطبية، التعليم و كذلك
الإستفادة من الدعم السيكولوجي و الإجتماعي. توضع هذه الأهمية
في عدة بلدان كفالة الأطفال اليتامى في قلب برامجنا: بفضل التربية
و إحاطة الأطفال في مأمن من تعرض الاستغلال.

LE SECOURS POPULAIRE FRANÇAIS

Depuis 1945, se référant à la Déclaration des Droits de l'Homme, le Secours populaire français (SPF) rassemble des hommes et des femmes dans une pluralité d'opinions, de croyances et de provenances et développe, en toute indépendance, des actions de solidarité en France, en Europe et dans le monde. Il est porteur des **valeurs humanistes** et s'inscrit dans une démarche d'éducation populaire. Respectueux de la dignité des personnes en difficulté, il instaure une relation dans laquelle la personne aidée devient un acteur à part entière de son propre devenir. Avocat des pauvres, il se donne pour mission d'être un **aiguillon des pouvoirs publics**.

Sous le haut patronage de l'UNESCO, le SPF va fêter ses 70 ans en 2015 avec deux événements majeurs :

- **La construction d'un grand mouvement d'enfants solidaires** en France et dans le monde avec l'accueil de 1000 enfants venant de 70 pays, accueillis par les fédérations du SPF pour un séjour de vacances en août prochain. Ce séjour sera ponctué par un grand rendez-vous mondial aux pieds de la Tour Eiffel le 19 août où sont attendus 70 000 personnes.
- **Les Assises Nationales, Européennes et mondiales**, qui auront lieu à Marseille en novembre, pour « construire les solidarités du 21^{ème} Siècle », en présence de 1200 délégués, dont nos partenaires étrangers.

QUELQUES CHIFFRES

- Le SPF est présent dans **tous les départements** français.
- Il agit dans le monde avec 1 réseau de **160 partenaires** dans **60 pays**.
- Il aide **3,3 millions de personnes** dont 2,8 millions en France.
- En France, il compte **1 million de membres** dont **80 000 bénévoles**.
- Le **Mouvement Copains du monde** regroupe des milliers d'enfants qui agissent pour la solidarité.
- Il existe un **club des entreprises partenaires** du SPF.

EN FRANCE

Le SPF apporte un soutien aux personnes et aux familles en situation de pauvreté et de précarité pour leur permettre de **se nourrir, de se loger, se vêtir, se chauffer, accéder aux soins, obtenir un soutien juridique, partir en vacances, pratiquer un sport, aller au cinéma ou au théâtre**. Avec une grande détermination le SPF agit également avec et pour les jeunes et les enfants, publics particulièrement vulnérables.

Crédit Photo : J-F. Debray

EN EUROPE

Le SPF travaille en partenariat avec un réseau d'associations ou fondations européennes qui partagent les mêmes valeurs, la même démarche. Avec elles, il agit non seulement pour **faire reculer la pauvreté et la précarité en Europe** et dans le monde mais aussi pour renforcer les liens d'amitié et solidaires entre Européens et promouvoir le bénévolat en particulier avec les jeunes et les enfants

Crédit Photo : SPF

DANS LE MONDE

Privilégiant le partenariat avec des associations locales, le SPF intervient dans les situations d'urgences (catastrophes, conflits, crises...) et accompagne sur le plus long terme des projets relevant du développement durable (autosuffisance et sécurité alimentaire, accès à l'eau et à l'énergie, éducation, activités génératrices de revenus, accès aux soins...).

Le réseau euro-méditerranéen pour la solidarité rassemble 23 associations du nord et du sud de la méditerranée, au sein duquel le SPF et ses partenaires mutualisent leurs efforts pour agir plus efficacement ensemble dans l'urgence et pour des actions durables.

QUELQUES EXEMPLES DE PROGRAMMES

Festival des solidarités euro-méditerranéennes de la jeunesse

Tous les deux ans, le Secours populaire organise une grande rencontre de la jeunesse solidaire. En 2014, elle a eu un rayonnement tout à fait exceptionnel, en prenant la forme d'un festival des solidarités euro-méditerranéennes. Il a rassemblé du 24 au 26 octobre quelques 300 jeunes de 18 nationalités. Au cœur des discussions, des conférences et des ateliers : faire reculer la précarité et l'exclusion en *mutualisant* les connaissances, les expériences et les pratiques. Le festival avait aussi pour objectif de renforcer les passerelles entre les associations euro-méditerranéennes afin d'engager des projets communs.

Programme auprès des réfugiés Syriens et Irakiens

📌 **Début des actions et du partenariat:** années 1970

Depuis 2011, le SPF et son *partenaire libanais*, Development for People and Nature Association ont apporté un soutien alimentaire et une aide d'urgence à plus de 12.000 réfugiés syriens. Des actions de soutien scolaire et d'accompagnement psycho-social sont mises en place. Des formations professionnelles sont dispensées en faveur des jeunes et des programmes d'échanges de pratiques autour d'actions citoyennes sont en cours. *En Jordanie*, avec l'association Dar Al Yasmin, deux classes supplémentaires ont été aménagées dans l'école de Qurtuba, à proximité du camp de Zaatari. 60 enfants réfugiés syriens ont ainsi repris le chemin de l'école en 2014. Des vêtements chauds ont également été distribués à 1000 enfants syriens lors de l'hiver 2014/2015. *En Irak*, le SPF et son partenaire non confessionnel irakien Iraqi Al-Amal ont remis une aide alimentaire et des produits de première nécessité à plus de 700 familles déplacées au cours de l'été 2014 dans les camps d'Ankawa et de Barhrka, à proximité d'Erbil. L'hôpital d'Erbil construit il y a près de vingt ans avec le soutien du SPF et de l'Union européenne accueille et soigne des centaines de déplacés.

Encourager la citoyenneté des jeunes à Jérusalem-Est

📌 **Début des actions et du partenariat:** années 1976

Avec le soutien de l'Agence française de Développement, le Secours populaire accompagne l'association Medical Relief Society sur un programme de trois ans destiné à mobiliser les jeunes de Jérusalem-Est autour d'actions d'entre-aide, en leur donnant les moyens d'agir au sein de leurs quartiers. Les 15 650 jeunes ciblés par le projet sont incités à mener des projets citoyens et solidaires, à affronter les difficultés quotidiennes de façon constructive. Une délégation de jeunes a participé au Festival des solidarités en octobre 2014.

Crédit Photo : SPF

Aide humanitaire en faveur des populations de Gaza

📌 **Début des actions et du partenariat:** années 1976

Le SPF a répondu à l'appel des médecins palestiniens et israéliens des associations Palestinian Medical relief society (PMRS) et Physicians for human rights (PHR). Les médecins de PMRS ont prodigué des soins d'urgence aux déplacés via leurs quatre centres de santé et leurs neuf cliniques mobiles. Grâce au SPF, les équipes médicales ont assuré des soins post-opératoires et de santé primaire, des traitements aux patients souffrant de maladies chroniques et un soutien psychosocial. Chaque équipe mobile a examiné en moyenne 250 personnes par jour, parfois jusqu'à 400.

CONTACT : Charlène Rolée
✉ charlene.rolée@secourspopulaire.fr
☎ 01.44.78.21.89

Since 1945, in accordance with the Declaration of Human Rights, the Secours populaire français (SPF) has been bringing together men and women from various political persuasions, beliefs and origins, to develop completely independent actions to help people in France, in Europe and around the world. It upholds **humanist values** and strives to achieve its goals through widespread education. It respects the dignity of people in difficulty, and fosters relationships in which the person receiving help becomes a player in his or her own future, in his or her own right. As an advocate of the poor, its mission is to be a **goad to public authorities**.

Under the distinguished patronage of UNESCO, the SPF is celebrating its 70-year anniversary in 2015 with two major events:

- **The establishment of a major movement of united children** in France and throughout the world, with the hosting of 1,000 children from 70 countries, invited by SPF federations for a holiday in August this year. This holiday will be centred around the huge worldwide meeting at the foot of the Eiffel Tower on 19 August, that 70,000 people are expected to attend.
- **The national, European and global meetings**, which will take place in Marseille in November, to “build unity for the 21st century”, with the presence of 1,200 delegates, including our international partners.

A FEW FIGURES

- The SPF is present in **all departments** of France.
- Its action around the world is organised into 1 network of **160 partners** in **60 countries**.
- It comes to the assistance of **3.3 million people**, 2.8 million of whom are in France.
- In France, it has **1 million members**, 80,000 of whom are **volunteers**.
- The **Copains du Monde** movement unites thousands of children.
- There is an **SPF business partners' club**.

IN FRANCE

The SPF provides support to people and families suffering from poverty and instability and helps them **feed themselves, find accommodation, clothing, heat and healthcare, obtain legal support, take a holiday, practice sport, and go to the cinema or theatre**. The SPF also acts with **great determination** with and for young people and children, who are particularly vulnerable.

IN EUROPE

The SPF works in partnership with a network of European organisations and foundations who share the same values and the same approach. In coordination with these organisations, it acts not only to **push back poverty and instability in Europe** and around the world, but also to reinforce the ties of friendship and unity among Europeans and promote volunteering especially in children and young people.

IN THE WORLD

In focusing on its partnership with local organisations, the SPF is involved in disaster situations (catastrophes, conflict, crises, etc.) and provides long-term support for projects relating to sustainable development (self-sufficiency and food safety, access to water, energy, education, income-generating activities, access to healthcare, etc.).

The Euro-Mediterranean network for unity brings together 23 organisations from the north and south of the Mediterranean, through which the SPF and its partners combine their efforts to act together more efficiently in emergency situations, to ensure sustainable actions.

A FEW EXAMPLES OF PROGRAMMES

Festival for young people's Euro-Mediterranean unity

Every two years, the Secours populaire organises a mass meeting for young people's unity. In 2014, it had an exceptionally huge impact, taking the form of a Euro-Mediterranean unity festival. From 24 to 26 October, it brought together some 300 young people of 18 nationalities. The discussions, conferences and workshops were focused on pushing back instability and exclusion by *sharing* knowledge, experience and practices. The festival also aimed to strengthen the bridges among Euro-Mediterranean organisations in order to commit to shared projects.

Programme for Syrian and Iraqi refugees

Start of actions and partnership: 1970s

Since 2011, the SPF and its *Lebanese partner*, the Development for People and Nature Association, have provided food support and emergency relief to over 12,000 Syrian refugees. Academic support and psychosocial assistance have also been implemented. Professional training is offered to young people as a priority and practice exchange programmes based on public assistance projects are on-going. *In Jordan*, with the Dar Al Yasmin organisation, two additional classes have been equipped in the Qurtuba school near the Zaatari camp. Sixty Syrian refugee children were able to return to school in 2014. Warm clothing was also distributed to 1,000 Syrian children during winter 2014/2015. *In Iraq*, the SPF and its non-religious Iraqi partner Iraqi Al-Amal provided food support and vital products to over 700 displaced families during summer 2014 in the Ankawa and Barhrka camps, near to Erbil. Erbil hospital, built almost 20 years ago with the support of the SPF and the European Union, can accommodate and treat hundreds of displaced people.

Encouraging citizenship among young people in East Jerusalem

Start of actions and partnership: 1976

With the support of the French Development Agency, the Secours populaire is working with the Medical Relief Society on a three-year programme designed to motivate young people from East Jerusalem into helping each other, by providing them with the means to take action within their own neighbourhoods. The 15,650 young people targeted by the project are encouraged to take part in schemes to benefit and unify their local area, to tackle the daily challenges in a constructive manner. A delegation of young people took part in the unity festival in October 2014.

Humanitarian aid for the people of Gaza

Start of actions and partnership: 1976

The SPF answered the call from Palestinian and Israeli doctors from the Palestinian Medical Relief Society (PMRS) and Physicians for Human Rights. Doctors from PMRS delivered emergency care to displaced people through their four health centres and their nine mobile clinics. With the help of the SPF, medical teams were able to provide post-operative care and first aid, as well as treatment for patients with chronic disease and psychosocial support. Each mobile team examined an average of 250 people each day, and sometimes as many as 400.

“ Actor in a sustainable and shared solidarity ”

Born in 1994 from a desire to develop a cross-disciplinary and sustainable expertise, Triangle G H is an International Solidarity Organization designing and implementing emergency, rehabilitation and development programmes in the field of water, hygiene and sanitation, civil engineering, food security and rural development, social-educational and psychosocial. In 2015, its committed teams operate in 10 countries and run 35 programmes thanks to sustainable public partnerships with major international donors.

Programmes in progress

Algeria	• Assistance to vulnerable Saharawi refugees living south of Tindouf and management of the UNHCR bases of Rabouni and Dakhla • Support to disabled persons settled in the Saharawi camps
Burma [Myanmar]	• Improvement of living conditions in isolated rural areas in Chin State
Central African Republic	• Restoring access to drinking water in the city of Bambari • Sustainable improvement of the living conditions of the most vulnerable farming populations in the Ouaka • Organizational and structural reinforcement of Students' parents associations for an improved management of schools • Sustainable improvement of sanitary conditions and access to water for vulnerable populations in the Ouaka • Capacity building of local actors working with street children • Multi-sectoral emergency assistance to vulnerable populations in rural areas in the Ouaka - Restoring basic services and creating conditions for a way out of the crisis in the town of Bambari • Improving food security and enhancing the livelihoods of populations of the Vakaga and the Ouaka affected by the crisis • Emergency assistance to populations affected by the conflict and to IDPs in the Ouaka • Emergency project – Emergency assistance in Water, Hygiene and Sanitation to the people affected by the crisis in the Ouaka Region • Improving access to drinking water in the Vakaga Region • Integrated programme to reduce the causes and effects of malnutrition for vulnerable populations in the sub-prefectures of Bambari and Berberati
Iraqi Kurdistan	• Emergency education for Syrian refugee children • Emergency assistance to populations displaced by the conflicts in Iraq • Emergency support WASH programme for displaced people

Laos	• Capacity building of local authorities for the definition and implementation of a strategy for agricultural irrigation (Khammouane Province) • Sustainable improvement of sanitary conditions and access to water in seventeen remote villages in the district of Bualapha (Khammouane Province)
North Korea	• Strengthening civil society for improved old age care • Improving food security of elderly people in retirement homes • Improving children's diet (animal protein intake)
Philippines	• Enhanced assistance to populations of Sulangan affected by typhoon Yolanda
Republic of Congo	• Local economic development for the preservation of the environment • Support to non-state actors contributing to poverty reduction through agricultural revival • Capacity building of local actors working on child protection • Support for the revival of the husbandry of ruminants in the Pool Region.
Sudan	• Enhancing the contribution of local actors to sustainable development and to the achievement of MDGs • Improving access to safe drinking water, sanitation facilities and better hygiene practices for vulnerable isolated populations in the center and west of Darfur • Supporting vulnerable households of IDPs in Darfur • Restoring and improving the food production capacity and livelihoods of vulnerable households affected by severe food insecurity in Central and Western Darfur • Improving the resilience capacity of vulnerable populations in Darfur • Improving the livelihoods and food security of communities affected by the conflict in Central Darfur • Emergency assistance in Water, Hygiene and Sanitation to the newly IDPs and populations affected by the conflict in Central Darfur
Timor Leste	• Towards strengthening civil society for a better protection of women and children victims of violence • Socio-economic reintegration programme for women victims of violence in East-Timor

Our main partners

European Commission, United Nations, French Government and local authorities, embassies and cooperation services from various countries, foundations and private companies.

The association is a member of Coordination Humanitaire et Développement (CHD) and Coordination SUD. It has signed the Framework Partnership Agreement with the Humanitarian Aid Department of the European Commission (ECHO) and with the United Nations High Commissioner for Refugees (UNHCR)

"ممثلة التضامن المستدام والمشارك"

انشأت في عام 1994 من ارادة تطوير خبرة عرضية ومستدامة ترانقل جينراسيون هوماتير جمعية التضامن الدولي تقوم بتنفيذ البرامج الاستعجالية، الترميم و التنمية في قطاع المياه، النظافة و الصرف الصحي، الهندسة المعمارية، الامن الغذائي، التنمية الريفية، الاجتماعية التربوية و السيكولوجية التعليمية.

2015 فرقةا الملتزمة و المتواجدة في 10 دولة تدير 35 برنامج بفضل شركاء عموميين دائمين و مع أهم الممولين الدوليين.

البرامج الجارية :

الجزائر

- مساعدة اللاجئين الصحراويين المتواجدين في المخيمات في جنوب تندوف و تسير مراكز المفوضية السامية لشؤون اللاجئين بالرابوني و الداخلة
- دعم الاشخاص ذوي الاحتياجات الخاصة المتواجدين في المخيمات اللاجئين الصحراويين

بورما (ميانمار)

- تحسين الظروف المعيشية لسكان القرى المعزولة في مقاطعة " تشين "

كورية الشمالية

- دعم المجتمع المدني من أجل رعاية أفضل للمسنين
- تحسين الأمن الغذائي لكبار السن المقيمين في ديار العجزة
- تحسين الوجبات الغذائية للأطفال (اعطاء كمية من بروتينات من أصل حيواني)

كردستان العراق

- التعليم الاستعجالي للأطفال اللاجئين السوريين
- تقديم مساعدات استعجالية للنازحين بسبب النزاع في العراق
- برنامج المياه- النظافة و الصرف الصحي الاستعجالي دعما للأشخاص النازحين

لاوس

- دعم قدرات السلطات المحلية في تحديد وتنفيذ استراتيجيتها في الري الزراعي (مقاطعة خاموان)
- التحسين المستدام للمحيط الصحي و توفير المياه في 17 قرية معزولة في منطقة
- بوالفة (محافظة خاموان)

الفلبين

- تقديم المساعدات للسكان سولن قان المتضررين من الاعصار يولاندا

جمهورية افريقيا الوسطى

- ضمان الحصول على المياه الصالحة للشرب في بلدة بامباري
- التحسين المستدام لظروف معيشة للمزارعين الأكثر ضعفا في أوكا
- الدعم التنظيمي والهيكلية لجمعيات أولياء التلاميذ من أجل تحسين إدارة المدارس
- توفير المياه الصالحة للشرب بصفة دائمة والبيئة الصحية الحسنة للسكان المعوزين في أوكا
- دعم قدرات الفاعلين المحليين للتكفل بأطفال الشوارع
- مساعدة استعجالية في متعددة القطاعات للفئات المعوزة من السكان في المناطق الريفية في أوكا
- استعادة الخدمات الأساسية و خلق الظروف الملائمة للخروج من الأزمة في بلدة بامباري
- تحسين الأمن الغذائي و تعزيز سبل معيشة السكان في فاكاجا و أوكا المتضررين من أزمة
- المساعدات الاستعجالية للأشخاص المتضررين من النزاع والنازحين داخلها في أوكا
- مشروع استعجالي -مساعدة استعجالية تتضمن توفير المياه والصرف الصحي و النظافة و الصرف الصحي للأشخاص للمتضررين من الأزمة في منطقة أوكا
- تحسين فرص الحصول على المياه الصالحة للشرب في مناطق فاكاجا
- تنفيذ برنامج متكامل للحد من أسباب و آثار سوء التغذية للسكان المعوزين في المحافظات الفرعية من بربراتي و بامباري

جمهورية الكونغو

- التمية الاقتصادية الجوارية في خدمة الحفاظ على البيئة
- دعم الجهات الفاعلة الغير الحكومية في مشاركتها في الحد من الفقر من خلال الانعاش الزراعي
- بناء قدرات الفاعلين المحليين في صالح حماية الطفولة
- دعم و تشجيع تربية الحيوانات المجترة في مقاطعة بول

السودان

- تعزيز مساهمة الفاعلين المحليين في التنمية المستدامة و تحقيق الأهداف الإنمائية للألفية
- دعم وتوسيع فرص الحصول على المياه الصالحة للشرب والصرف الصحي و تحسين ممارسات النظافة للسكان المعوزين و المحرومين في وسط وغرب دارفور
- مساعدة الأسر المعوزة النازحة داخلها في دارفور

HumaniTerra International (HTI) est une organisation non gouvernementale d'aide chirurgicale aux pays en développement. Elle a pour objectif d'aider les pays et les populations en proie à de graves crises politiques, économiques et humaines à améliorer l'offre chirurgicale. Depuis sa création en 1998, plus de 300 professionnels se sont engagés bénévolement pour mener à bien cette mission partout dans le monde.

HumaniTerra International, avec ses équipes de spécialistes volontaires, intervient et apporte ses compétences dans trois domaines essentiels :

1. Soigner: Son réseau de professionnels de santé bénévoles permet à HumaniTerra d'intervenir directement dans les pays concernés en envoyant des missions de soins d'une durée comprise entre deux et six semaines, dans des domaines chirurgicaux spécialisés.

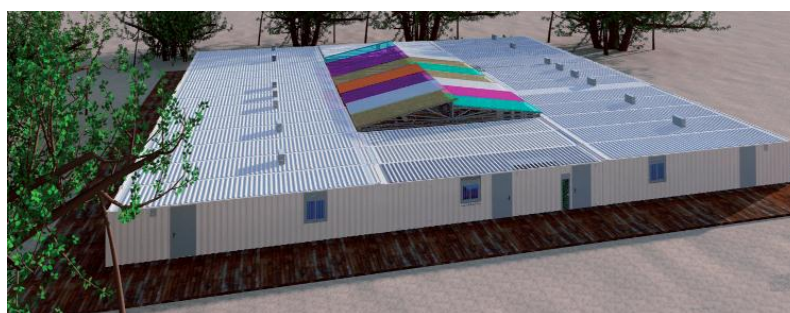

2. Enseigner : HumaniTerra a pour vocation de valoriser les ressources humaines locales et de rendre autonomes les structures de soins d'accueil. Une action essentielle est donc la formation des professionnels de santé locaux avec notamment du compagnonnage chirurgical sur place et des programmes de formation de haut niveau dans les structures hospitalières françaises. HTI a ainsi formé plus de 50 médecins et agents de santé en France, à des spécialités chirurgicales, médicales et à la gestion hospitalière.

3. Reconstruire : Pour parachever leur autonomie, les services de santé locaux doivent disposer de structures hospitalières adéquates. Pour cela, HumaniTerra apporte une expertise dans la construction des infrastructures hospitalières, procède à la réhabilitation des bâtiments existants et de leurs outils (bloc opératoire, anesthésie réanimation, radiologie) avec des équipements adaptés à l'environnement local. Elle s'occupe également d'acheminer du matériel médical et des médicaments, en partenariat avec les acteurs locaux, en respectant un code éthique et une charte qualité stricts.

HumaniTerra s'engage dans ces missions avec l'objectif de rendre les acteurs locaux indépendants et opérationnels, et ce dans tous ses domaines de compétence. C'est par exemple le cas de l'Afghanistan : après un engagement d'HumaniTerra de plus de 12 ans sur des projets de chirurgie réparatrice, la création d'un centre de brûlés, des campagnes de prévention et la rénovation d'un hôpital, la mission de clôture, donnant aux partenaires locaux tous les outils nécessaires pour poursuivre les actions, a eu lieu en 2014.

Actuellement HumaniTerra s'engage pour développer la prise en charge chirurgicale des pieds bots au Bangladesh, des brûlés syriens en Jordanie, des femmes enceintes d'Haïti, des nouveaux-nés en Tunisie ou des femmes fistuleuses en Guinée. Et cela grâce à la formation de personnel médical spécialisé ainsi qu'à la rénovation de blocs opératoires et de service chirurgicaux de Kankan, Kasserine, Cap Haïtien et d'Irbid, de la maternité de Kasserine et des bateaux- hôpitaux du Bangladesh.

Ces activités nécessitent une rigueur, une éthique et une continuité que chaque jour les adhérents développent dans un esprit de solidarité exemplaire.

HumaniTerra International (HTI) is a humanitarian surgical NGO. Its purpose is to help countries and people in serious political, economic and human crisis to improve surgical care. Since its creation in 1998, over 300 professionals got involved voluntarily to complete successfully this mission worldwide.

HumaniTerra International, with its volunteer teams, is involved and brings its skills in three key areas:

1. **Care:** Its network of medical professional volunteers allows HumaniTerra to intervene directly in those countries by care missions lasting between two and six weeks, in specialized surgical fields.

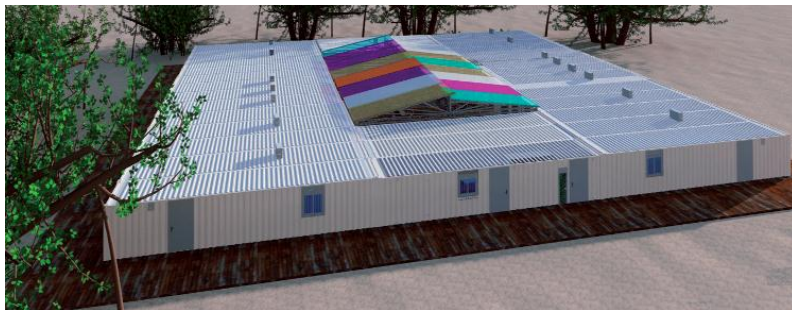

2. **Train and teach:** HumaniTerra aims to develop local human resources and help surgical teams to become autonomous. A key action is the training locally of health professionals including surgical companionship, and also high-level training programs for foreign doctors in French hospitals. HTI has trained more than 50 surgeons and anaesthesiologists in France, and a lot of health workers for surgery, anesthesiology, nursing and hospital management.

3. Rebuild: To insure the self-sufficiency, the local medical services need to have adequate hospital structures. To do that, HumaniTerra brings its expertise in hospital infrastructure building, rehabilitates current buildings and their equipments (operation rooms, anesthesia, radiology...), adapted to the local environment. HTI also brings medicals supplies and medicine.

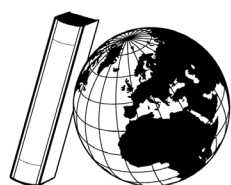

HumaniTerra's goal in its missions is to make local players independent and functional in every field HumaniTerra approaches. For example, it was the case in Afghanistan: After a commitment of 12 years on reconstructive surgery, awareness projects and the rehabilitation of an hospital, HumaniTerra's final mission was in 2014 to give local partners all the tools necessary to maintain the actions.

Currently, HumaniTerra is committed to develop surgical care of clubfoot in Bangladesh, of Syrian burn victims in Jordan, of pregnant women on Haiti, of newborns in Tunisia and of gynecology problems in Guinea. All of this was possible with the training of specialized medical and surgical staff and the rehabilitation of surgical units of Kankan, Kasserine, Cap Haitian and Irbid, and renovation of the maternity ward of Bangui and Kasserine and the boat hospitals of Bangladesh.

Theses missions require rigor, ethics and a continuity that every day our members develop in spirit of exemplary solidarity.

Bibliothèques Sans Frontières

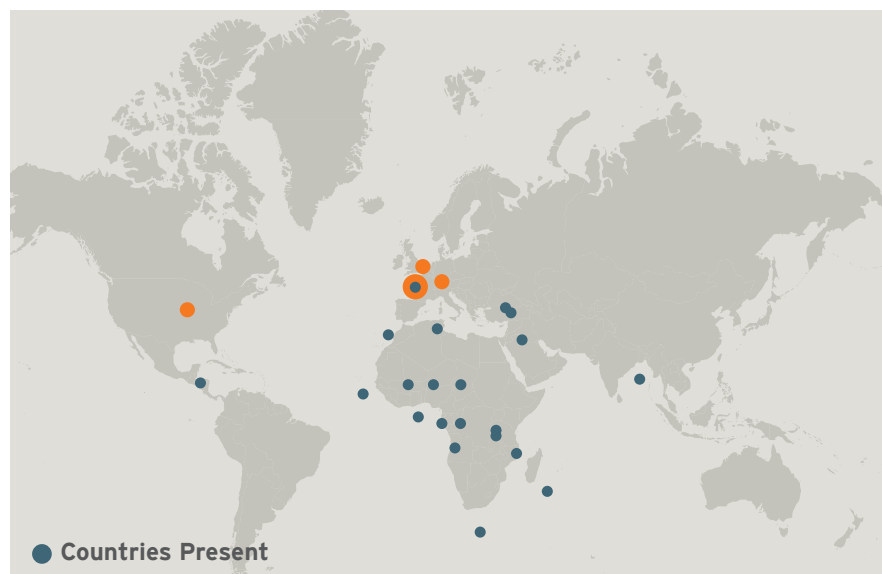

Libraries Without Borders

WWW.BIBLIOSANSFRONTIERES.ORG

Created in 2007, Libraries Without Borders (LWB) is one of the leading international organizations working in culture-and knowledge-based development around the world. In both development and humanitarian contexts, LWB's aim is to provide access to information and culture for all by providing support to libraries in all their forms, in France and in 20 countries worldwide.

LWB supports local initiatives by creating and reinforcing libraries, training librarians, distributing books, supporting local publishing, designing library networks, promoting cultural heritage, and reducing the digital divide. By helping computerize and provide equipment to cultural and documentation centers, donating books, training librarians and promoting networking among libraries, Libraries Without Borders works daily to promote access to knowledge in the world.

Since 2012, LWB has been developing several **digital content projects in both educational sectors** (MOOCs, collaborative learning, etc.) **and professional fields** (specialized digital libraries, etc.). Based in Paris, France, the LWB global network has expanded to include branches in the United States and Switzerland, in order to put access to information and knowledge in international development at the center of the international political agenda.

WHERE WE WORK

LWB works in more than **20 countries world-wide:**

- > LWB HQ , Paris, France
- > LWB USA + LWB Switzerland

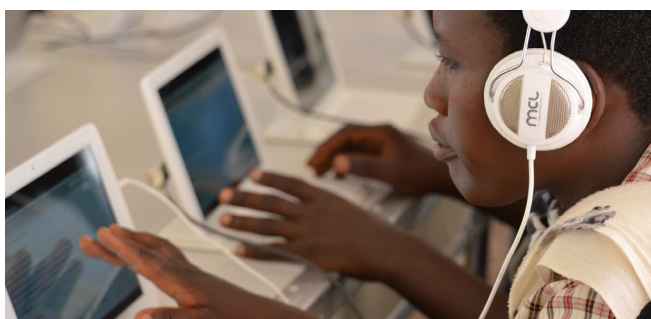

LWB Today:

- > 40 employers
- > 3M euros annual budget
- > more than 500 volunteers around the world

IdeasBox in Burundi

IDEASBOX

PORTABLE MEDIA-CENTER FOR VULNERABLE POPULATIONS

LWB has developed a major innovation for access to education, culture and information for vulnerable populations: the Ideas Box, a portable media center. It provides tools for teachers, education, professional development, artistic creativity and access to critical information. It empowers children, adults, and communities to pave foundations for a self-reliant future.

Designed by creator Philippe Starck and created in partnership with the UN Refugee Agency, the Ideas Box is a comprehensive toolkit for populations worldwide. The Box itself protects the contents from rain, heat, and dust, and can be packed and unpacked within minutes.

Following the successful pilot implementation in camps for Congolese refugees in Burundi, LWB is now preparing to bring the Ideas Box to Jordan and Lebanon. Two portable multi-media toolkits will be implemented as part of this program aimed at both Syrian refugees and local populations, laying the groundwork for future, more extensive regional coverage in 2015.

THE IDEAS BOX AT A GLANCE

A media center in a kit, the Ideas Box fits on two pallets and can be installed in less than 20 minutes under any conditions. It brings:

- A **satellite Internet connection**, 15 tablets and 4 laptops
- A library with **250 paper books** and thousands of e-books as well as **50 e-readers**
- MOOC and **stand-alone Internet educational digital contents** such as Khan Academy, Wikipedia, mapping software, etc.
- A **cinema** with a rich film collection
- 5 HD **cameras** for film-making and journalism
- Board games and **video games**
- Arts and crafts materials, puppets and a **theatre workshop**.

LOSBERGER RDS

RAPID DEPLOYMENT SYSTEMS

Humanitarian solutions

LOSBERGER Rapid Deployment Systems is a specialist in the design, manufacture and installation of fast deployment, long term, metallic - textile structures for use in emergency situations.

The company supplies turn-key solutions and offers a wide range of quality tents, shelters and temporary or permanent buildings.

- Field camps
- Field or permanent hospitals
- Educational structures and conference rooms
- Shelters for peace keeping operations
- Special applications
- Collective decontamination & protection
- Airport / passenger terminals
- Industrial buildings and storage hangars

LOSBERGER RDS OFFERS A WIDE RANGE OF SOLUTIONS FOR HUMAN PROTECTION

Natural or manmade disasters impact millions of us. These accidents can happen in isolated areas in which no infrastructures are immediately available for the victims. Many lives can be saved immediately by deploying suitable structures.

Leader in the field of permanent and semi - permanent structures, Losberger RDS can provide decent living conditions for victims of disasters in short time, providing turn-key solutions which includes all needed equipment :

- Sanitary facilities
- Water treatment
- Water reservoirs
- Air conditioning
- Electricity supply
- Kitchen & cold storage
- Laundry
- Dispensaries
- Camp management
- Maintenance in working condition

info@losberger-rds.com
www.losberger-rds.com

When the rapidity of intervention allows to protect and preserve lives and equipment.

Losberger RDS and MSF have a long-standing collaboration through the joint development of a modular inflatable hospital.

Composed of 5 Losberger TMM inflatable shelters, this mobile hospital can accommodate an emergency room, a dressing room, a clinic and up to 45 medical beds. Today this innovative hospital is recognized worldwide by all the NGOs, the Samaritan's Purse in the United States has placed an order for the same hospital design.

MSF has deployed this hospital in the following countries: Haiti (2010), Pakistan (2013) and the Philippines (2014).

Ebola treatment center for the United Nations.

Due to Ebola outbreak, Losberger RDS has been contacted by the Department of Peacekeeping Operations to develop a turn-key solution for «Ebola Treatment Unit» of 10 and 20 beds (Freetown, Conakry and Monrovia), with WHO standard. Losberger RDS provides the following packages: Infrastructure and medical equipment, medical staff, and facility management.

100 Man camp for MINUSMA (UN) , Gao, Mali

Losberger provided a tent camp to house up to 100 peacekeepers. The camp was delivered and deployed in 15 days.

SINCE 1992, THE AIM OF THE GDF SUEZ CORPORATE FOUNDATION HAS BEEN TO TRANSLATE THE GDF SUEZ GROUP'S COMMITMENT "BY PEOPLE FOR PEOPLE" INTO CONCRETE ACTIONS. IN ADDITION TO BUSINESS SOLUTIONS THAT MEET THE GROUP'S SOCIAL AND ENVIRONMENTAL CHALLENGES, THE FOUNDATION DRIVES INNOVATIVE HUMANITARIAN PROJECTS THAT HELP BUILD TOMORROW'S WORLD.

“BY PEOPLE FOR PEOPLE”

The GDF SUEZ Corporate Foundation helps children, women and men around the world to more effectively build their future.

THE FOUNDATION'S THREE COMMITMENTS FOR THE FUTURE

Educate

CHILDHOOD & YOUTH

The GDF SUEZ Foundation encourages and supports projects for helping children in distress, and for promoting education, integration and health for future generations. The objectives of this program are to give the most vulnerable children the energy they need to grow and learn and making sports practice a tool for socio-economic development and social cohesion.

Innovate

ACCESS TO ENERGY FOR ALL

Over 1.4 billion individuals are without access to modern energy sources: favoring energy access contributes to fighting inequality and poverty, to improving public health, and to protecting the environment. GDF SUEZ has the know-how, technology, and research capacity needed to provide concrete support for the projects of in-house non-profit associations as well as of outside partners.

Preserve

ENVIRONMENT & CLIMATE

Biodiversity, indispensable to the well-being of humanity, is threatened by several major issues such as climate change. The GDF SUEZ Foundation supports projects that combat the effects of climate change together with those that fight to preserve threatened species and promote eco-responsible urban development.

The Corporate Foundation programme ACCESS TO ENERGY FOR ALL, is part of the GDF SUEZ RASSEMBLEURS D'ENERGIES (ENERGY GATHERERS) Initiative.

The aim of the initiative is to promote the fight against energy poverty, and the access to sustainable energy for all, which is part in the politics of GDF SUEZ environmental and social responsibility.

MAIN ACTIONS

Sustainable rural electrification project with **FRIENDSHIP NGO** in Bangladesh

The Friendship NGO, created in 1998 by Runa Khan, seeks to provide support to vulnerable populations in Bangladesh.

Phase 1. Testing and validating innovative technical models

The GDF SUEZ Corporate Foundation worked with the Friendship NGO on a pilot scheme to bring electricity to impoverished island villages on the Brahmaputra River with technical support provided by Energy Assistance France volunteers.

The Micro grids and solar home system are

the most viable, affordable and appropriate solution for the char (river island) population.

Phase 2. Providing electricity to the char dwellers

Approx. 500 panels have been sold in the most underprivileged areas, impacting several families per system sold.

friendship-bd.org

Today more than 2,500 families benefit from this energy.

Disaster management with **GDF SUEZ NGOs: HAITI**

Since January 12, 2010, GDF SUEZ and its employees have been mobilized for Haïti:

- The Group's financial mobilization, via its affiliates, business lines and units for providing emergency assistance

- Mobilization of in-house skills by the Group's employee associations: Energy Assistance & Codegaz

- Mobilization for the Fondation de France: The "Sauvons les enfants d'Haïti" ("Save

Haiti's Children") operation, in partnership with Figaro Magazine

- The GDF SUEZ Corporate Foundation, committed to helping Haïti's children with the Chaîne de l'Espoir (Chain of Hope)

energy-assistance.org
codegaz.org

Micro finance & renewable energy with **PlaNet Finance** in South Africa & China

12 years of "Microfinance and Energy" partnership

Entrepreneurship through Energy Efficient and Renewable Energy (EERE) technologies

EnerGcare / South Africa: This project was launched in 2011 to reduce energy poverty, unemployment and pollutant gas emissions.

- In December 2014, the GDF SUEZ Foundation awarded Sarah Matlodi Soloane the Renewable Energy prize at the International Micro-finance Awards for the EnerGcare project

China: providing farmers with access to renewable energy produced from biomass.

- These projects will help to provide **4,000 micro-entrepreneurs** with access to renewable energy sources by the end of 2015

Supporting micro-enterprises in the poorest regions

- GDF SUEZ is a founding partner of the European social microcredit platform Microworld.
- The Group was the first company to set up an online loan-granting platform for its employees.

planetfinance.org

For the 12th Dubai International Humanitarian Aid & Development Conference & Exhibition the GDF SUEZ Corporate Foundation introduces and hosts one of its historical partner: **CHAIN OF HOPE**

Chaired by Dr Eric Cheysson and created by Pr Alain Deloche and a team of surgeons in 1994, Chain of Hope acts in more than **30 countries** to provide high-quality healthcare to children from disadvantaged countries.

Every year, more than **100 000 children** are cured of which **5 000** are operated on.

chainedespoir.org

Its missions

1. Receiving children in France to provide them with healthcare
2. Sending surgical missions abroad
3. Training medical and paramedical staff to ensure these country's autonomy
4. Developing hospital facilities
5. Responding to humanitarian crisis

ACTION HUMANITAIRE FRANCE

La France participera du 24 au 26 mars 2015 à une des plus importantes rencontres des acteurs de l'aide humanitaire, le « Dubai International Humanitarian Aid & Development Conference & Exhibition » (DIHAD).

Organisée sous le patronage de l'Émir de Dubaï, cette conférence, qui fera le point sur les grandes tendances humanitaires actuelles, réunira les principales agences onusiennes, des organisations gouvernementales et non gouvernementales, des fondations, des personnalités du monde académique, des médias et des entreprises innovantes dans le champ humanitaire.

Au sein du pavillon FRANCE, espace de débats et de d'exposition, le Centre de crise et de soutien du ministère des Affaires étrangères réunira cette année ONG et entreprises françaises œuvrant à l'action humanitaire, et valorisera ainsi l'expertise de la France auprès des principaux donateurs d'ordre de l'aide humanitaire et du développement. Cette présence permettra également de développer des contacts avec les nouveaux acteurs de la scène humanitaire, notamment les États du Golfe.

La présence de la France à cette importante manifestation internationale visera enfin à mieux faire connaître les positions françaises sur les grandes questions de l'aide humanitaire, en prévision notamment du sommet humanitaire mondial de 2016.

ÊTRE UTILE AUX HOMMES

12th edition
24 - 26 MARCH 2015
